🪪 PROFILE

Innovative and results-driven Flutter Developer with 5+ years of experience designing, developing, and deploying mobile applications. Adept at working in Agile environments and skilled in integrating RESTful APIs, Firebase Databases, and Authentication. Strong understanding of Dart programming and UI/UX principles. Successfully completed over 20 projects, and confident in developing any software solution from concept to deployment, ensuring high performance and scalability.

💼 PROFESSIONAL EXPERIENCE

Flutter Developer (Remote)   Jul 2023 – Dec 2023
WHMCSSMARTERS
- Led the development of Smart TV applications and a cross-platform mobile app using Flutter, reducing development time by 30%.
- Refined and cleaned the codebase to enhance readability, maintainability, and usability for white label sales.
- Integrated RESTful APIs to improve app functionality, boosting user engagement by over 20%.
- Collaborated with the CEO, team members, and UX/UI designers to streamline processes and implement responsive, intuitive user interfaces.
- Utilized Firebase for authentication, real-time database, and cloud storage.
- Mentored junior developers, providing guidance on best practices and code reviews.

Mobile Developer and Team Lead (Remote)   Mar 2023 – present
Hey!Jag - Florida, USA

Developed a comprehensive restaurant delivery app leveraging big data, featuring distinct applications for drivers, restaurants, and customers:

Driver App: Enabled efficient delivery management with real-time navigation via Google Maps and notifications.
Restaurant App: Streamlined order management and communication with drivers, enhancing efficiency.
Customer App: Enabled seamless ordering with integrated payment gateway and real-time order tracking.
- Reviewed and tested backend developer's work, ensuring endpoint functionality and database integrity.
- Collaborated with UI/UX designers to evaluate user flow and ensure a positive user experience.

Mobile Developer and Tutor   Jul 2022 – present
Freelance
- **Freelance Flutter Development**: Delivered customized mobile applications for various clients across different freelance platforms, consistently receiving positive reviews and high client satisfaction.
- **Client Collaboration**: Worked closely with clients to gather requirements, provide progress updates, and incorporate feedback into development, fostering long-term professional relationships.
- **Technical Tutoring**: Provided one-on-one and group tutoring sessions, teaching clients how to develop mobile applications using Flutter, leading to successful client outcomes and repeat engagements.
- **Educational Materials**: Created and distributed comprehensive educational resources, including tutorials, code examples, and step-by-step guides to facilitate learning.
- **Skill Development**: Helped clients build foundational skills in Flutter development, guiding them through best practices and advanced techniques.
- **Project Management**: Managed multiple projects simultaneously, maintaining clear communication, meeting deadlines, and ensuring client satisfaction.

Mobile Application Developer   Jun 2020 – Nov 2022
Gammal Tech - Alexandrea, Egypt

- **Course Management App Development**: Developed an app to organize and manage educational courses created by Gammal Tech, which were previously scattered across YouTube, significantly improving student access to course materials.
- **Database Integration**: Implemented a robust database solution to enable seamless updates and deletions of courses, ensuring the app's content remains current and accurate.
- **Efficiency Improvement**: Transformed a disorganized collection of Gammal Tech's courses into a structured, easily navigable system, enhancing the overall learning experience for students.
- **Technical Achievement**: Successfully addressed the challenge of unorganized content, delivering a reliable and user-friendly application for educational purposes.

🎓 EDUCATION

Bachelor's Degree   Jun 2014 – Jun 2018 | Monsoura, Egypt
Mansoura University

🧠 SKILLS

Languages   **Frameworks**
Dart, Java, Swift, Kotlin, Python   Flutter

Databases   **Tools**
Firebase, SQL, MongoDB   Git, Jenkins, JIRA, Firebase

Platforms   **Services**
iOS, Android, Web, Windows, Mac, Linux   Payment Gateways, Maps and Geolocation
